Creative Production
Media Buying
Social Media
PR & Outreach

Flagship Marketing provides experienced project leadership so you can meet contract goals. As a DVBE/SB serving government contracts throughout California, you can check the box on your DVBE requirement. But you'll get so much more with us as your marketing, advertising and outreach partner.

We are committed to solving community challenges and serving public agencies to help create change. We bring real value to your contract, providing strategic insight and connecting you to the marketing services you need. Whether serving as the prime or the subcontractor, our services allow funding dollars to be focused where they are needed most in the campaign, not just to meet a contract requirement.

Today more than ever, public agencies are seeking effective strategies for engaging target audiences and changing communities. In partnership with your agency, Flagship Marketing can activate advertising initiatives and advance your outreach for the greatest possible impact.
